

ADVANTAGES

- Excellent Chemical Resistance
- Robust Construction
- Solid Material without any Chemical Additive.

FEATURES

- Body materials: PP - PVDF - PVC
- Tmax = PP 70°C - PVDF 90°C - PVC 55°C
- Connection: Threaded (Standard) - Socket Union (Optional)
- Pump Depth 400 - 2.000 mm
- Bushing Couple Wide range of combinations (see table)
- Open impeller
- Customizable Support Flange Dimensions

APPLICATIONS

- Industry: Chemical, Electro plating, PCB board
- Acid and Alkaline solutions with the presence of solid particles in suspension
- Waste Water Treatment

SPECIFICATIONS

	Maximum capacity (l/m)	Total head (m)	Motor (kw)	T max exercise °C
50 Hz	350 ÷ 780	18 ÷ 27	1,5 ÷ 5,5	55 PVC 90 PVDF* 70 PP
60 Hz	350 ÷ 780	18 ÷ 27	1,5 ÷ 5,5	

*It may change according to supplied motor and pump depth
